BNVD

Adams Industries, Inc. is pleased to introduce the new BNVD. The BNVD is a form/fit/function equivalent to the PVS-15 without the delivery hassles. This dual tube night vision goggle offers outstanding depth perception and supportability at an affordable price. The BNVD utilizes MIL SPEC optics from the AN/PVS-14. It also uses head and helmet mounting options from the AN/PVS-7B/D, AN/PVS-14, AN/PVS-7A/C, AN/PVS-15 and AN/PVS-18. Switching from one mounting system to another can be accomplished by the end user within minutes. Best yet, the system is waterproof to 66 feet.

Power for the BNVD is supplied via one AA battery for up to 10 hours of continuous use. The BNVD also uses standard PVS-7B/D and PVS-14 parts and accessories for simplified in-the-field supportability.

Features:

- F1.2 objective lenses
- IR Illuminator
- Head mountable
- Automatic Brightness Control
- Eyepiece diopter adjustments
- Flexible carrying case
- Uses one AA battery
- 2 year system warranty (US Government Only)
