MARS 4X

The MARS 4X is a four power NV rifle scope that is a cost effective alternative to the Raptor® and other much more expensive military night vision systems. It's all new design utilizes space-age materials to reduce the weight of the unit and improve resistance to recoil. The housing is waterproof and nitrogen purged. The reticle is a dual-color illuminated mil-dot crosshair. Scope is guaranteed to hold zero on weapons up to .50 cal.

MARS 4X NIGHT VISION WEAPON SIGHT BY PART NUMBER:

AIMARS4X-2I: AI/MARS 4X WITH 40-45 LP/MM FOM < 1250 GEN. 2+ IIT. INCLUDES LOW PROFILE RAIL MOUNT AND HARD CASE.
