# AI/NVB5X/10X

The AI/NVB series of long range binoculars offers users the choice of 5X and 10X magnification in a waterproof package that offers a compact and robust design. A selection of generation 2+ and CGTI exportable tubes and multi-coated all glass optics provides exceptional performance, and the optional long range illuminator attachment provides a clear image on the darkest nights.

The AI/NVB ships in the soft case with operator's manual and batteries. An attachable long range IR illuminator is available separately.
